Description

FGFF Website Graphics- Dark Trend

Peonies, orchids, garden roses, rococo tulips and magnolia foliage in beautiful rich tones of red and burgundy provide a display of blooms to greet each guest with majestic elegance.

Rich tones of red in peonies and garden roses dance atop the luscious greenery and foliage for a centerpiece or accent design that will romanticize any room.

Dancing in the pale moonlight, this tulip and peony arrangement playfully cascades over a glass rimmed vase. Appropriate for a gift table, bar top or a centerpiece for a guest table.

Henry Bockstone peonies steal the show in this design with accents of tulips and garden roses. This design would sit perfectly on a bedside table or coffee table

A clutch of white peonies with magnolia and plumosa foliage are perfectly paired in this sweet handtied bouquet fit for a bride.

Even Gatsby couldn't resist wearing this magnificent boutonniere upon his lapel. Red ranunculi accented with fern and evergreen sprigs show dignity and pride for any groom.

The happily married couple deserve the best. With the honors of presenting the couple, the chair decor takes the roll of clearly designating where they will dine. Cascades of peonies, sprigs of ferns and gorgeous foliage tie right on to each chair.

The happily married couple deserve the best. With the honors of presenting the couple, the chair decor takes the roll of clearly designating where they will dine. Cascades of ferns and gorgeous foliage highlighted by red ilex berries tie right on to each chair.

Your guests will feel like royalty when they take their places at the table with this breathtaking tablescape. Peonies, roses, and cymbidiums in shades of red intermingled with magnolia and pittosporum are sure to leave a lasting impression.

This stunning garden style mantle decor can be added to any ceremony site or fireplace mantle. The cascades of amaranthus, white peonies, ilex berries and cymbidium orchids, overflow down each side and over the front to provide a memorable floral backdrop.
